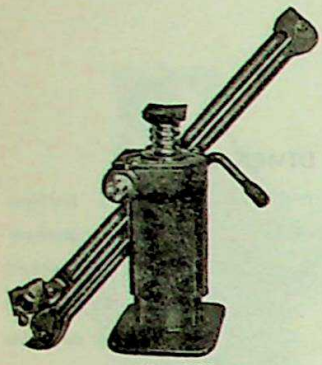
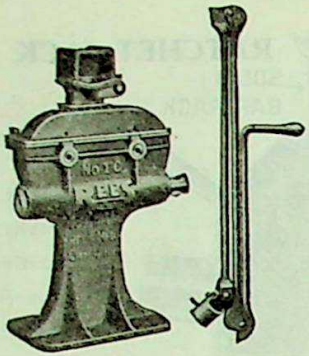
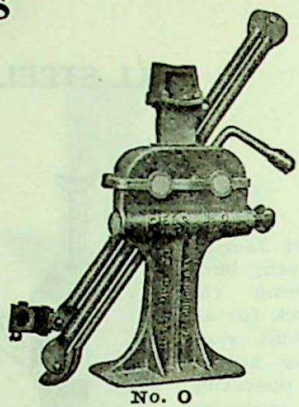
JACKS



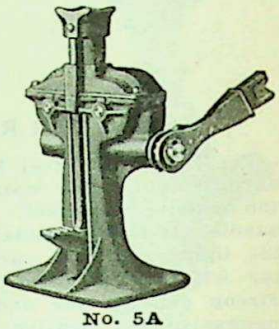
No. 102



No. 1-C



No. O



No. 5A

Rees Jacks are all built on the double worm gear drive principle. No ratchets or dogs, no springs to break. The load is always locked and danger of slipping is eliminated. This construction permits raising of extremely heavy loads with little effort.

REES JACK No. 102.
(For Cars Equipped with Balloon or Regular Tires.)

This Jack is designed to handle any passenger car, including cars equipped with balloon tires. It will stand hard usage and give long service.

Will go under any axle which is not less than 6½ inches from the ground, with tire deflated, and raise it to a height of 15 inches in one continuous lift. Equipped with a long folding handle, permitting one to operate jack without coming in contact with springs, bumpers or spare tires. Packed in standard package, consisting of six jacks.

Height, 6½ inches. Lift, 8½ inches. Capacity, 2 tons. Weight, 9¼ pounds.
